SKINS AND OXYGEN

Skin contact whites, orange wines, amber wines. Whatever you want to call them.

White grape juice left on skins after pressing for a little added flesh and grip.

Oxidative wines are white wines enhanced with exposure to oxygen.

AGAVE SPIRITS

The producers of the below agave spirits echo similar sentiments to the natural wine producers we feature; they focus on the quality of the raw ingredient, take a minimal intervention approach and seek a path of sustainability for the future.

Tequila = must be produced from 'blue' agave in the state of Jalisco and a few neighbouring states. Basically the champagne of the agave world.

Mezcal = can be produced from over 30 different types of agave in 8 different states.

Sotol = a northern relative of tequila and mezcal, distilled from Sotol aka 'desert spoon'.
