# AGAVE SPIRITS

The producers of the below agave spirits echo similar sentiments to the natural wine producers we feature; they focus on the quality of the raw ingredient, take a minimal intervention approach and seek a path of sustainability for the future.

Tequila = must be produced from 'blue' agave in the state of Jalisco and a few neighbouring states. Basically the champagne of the agave world.

Mezcal = can be produced from over 30 different types of agave in 8 different states.

Sotol = a northern relative of tequila and mezcal, distilled from Sotol aka 'desert spoon'.
